Postscript Document (*.ps) Viewer

The documentation for the GERB project at RMIB is mainly available as postscript files. This page aims to help you to install a viewer for these files.

You have to install successively Ghostscript and GSview (or GV for UNIX). Both are available from the web site:

- http://www.cs.wisc.edu/~ghost/

From:
https://hail.oma.be/ - **RMIB GERB wiki**
