

The GERB Instruments

Introduction

The GERB instruments are developed by a European consortium including UK, Italy and Belgium. The consortium is led by the Rutherford Appleton Laboratory (RAL) in the UK.

Links

The main characteristics and performances of the GERB instruments can be found on the following web pages at RAL and Imperial College (IC):

- [Instrument Design \(RAL\)](#)
- [Instrument Performance \(RAL\)](#)
- [Instrument and Calibration \(IC\)](#)
